

Simple and Error-free Payroll Processing

Protel Labs offers avigorous, ascendable and cohesive payroll solution – *PayTrak* that is pivotal to manage the complexities of payroll processing.

The cardinal mission of HRMS - payroll management solution is to ensure that all employees are paid accurately and timely with correct deductions and withholdings. Protel Labs Payroll Management gives you the upper hand on all financial records of salaries, wages, bonuses and deductions. We help you streamline your entire payroll management process and reduce payroll processing time considerably.

How Do You Benefit?

Pay days made easier

Having an electronic payroll system can give a company more control over payroll information. Protel Labs' payroll features are directly linked to employee information and time and attendance tracking software. This greatly reduces the risk of committing calculation errors and makes payroll calculation much simpler.

Efficient planning of future costs

As payroll packages can provide forecasts, you can use these to plan staff costs and budgets by entering hypothetical numbers to see the exact total cost of an employee.

Storing personal records

Payroll systems help record additional information such as records of annual leave availed by the employee and this eliminates the need for a separate software package.

Accurate and time efficient

Protel Labs' *PayTrak* allows precise calculation of bonuses, expenses, holiday pay, etc. with minimum effort and helps you generate accurate pay slips. It also enables you to save time by working out payroll calculations and deductions faster.

Secure and easy accessibility of data

Protel Labs HRMS *PayTrak* helps you store data such as payslips and annual reports in a secure, easily accessible system.
